

## N. A. A. C. P. Holds Annual Meeting

The National Association for the Advancement of Colored People held its annual convention last week at Newark, N. J. Representatives from thirty states were in attendance. The association, which is now fifteen years old, has been extremely active in the last year in waging the fight for the passage of the anti-lynching bill.

### Warns Republicans

James Weldon Johnson, in addressing the convention, warned the Republican party of America that the support of the black people in the forthcoming election would be of a different nature from those of the past. He urged the black people of America to support men and measures, instead of parties and candidates.

### Award Springarn Medal

On Tuesday, June 20th, the Springarn medal was presented to Mrs. B. Talbert, who was adjudged the performer of the most notable achievement of the year by a member of the black race. Mrs. Talbert raised the funds to preserve the home of the great Frederick Douglass as a national memorial.

### Dubois Reports

After Congressman Dyer had made a stirring speech on the evils of lynching, the various officials of the organization made their reports and made glowing addresses. Dr. Dubois, William Pickens and Dr. Goldenweiser were especially impressive.

MEN, if you want soft, black wavy hair, ask your druggist for Black Crow Hair Dressing. Price 60 cents.

## BLACK BELT OF THE SOUTH FAST PASSING AWAY

Counties Where Race Outnumbered Whites Greatly Reduced

ATLANTA, Ga., June 28—(Special): The historic Southern "Black Belts" are disintegrating and are destined to pass in a few more generations, according to census studies made by Dr. T. J. Wolfert, a sociologist of this city. In 1890 there were 300 counties in the South in which Negro population outnumbered the white. By 1910 the number had shrunk to 264, and in 1920 there were only 216. In 1910 fifty-four counties showed a Negro population of more than three to one. In 1920 only thirty-two counties had so high a proportion.

Migration to the North and to the cities and a decreasing birth rate have caused the change. During the last decade the cities gained three quarters of a million in Negro population and the rural districts lost a quarter of a million. The increase in the whole country was only 600,000, or 6 1/2 per cent, as against eleven, fourteen, seventeen, and twenty-two per cent respectively in the four decades preceding. Meantime the infant death rate among the race continues to be heavy.

The Northern States showed the largest percentage of gain, Michigan leading with 251 per cent. Pennsylvania now has more Negroes than Maryland or Kentucky; Ohio has more than Oklahoma. North Carolina had a gain of 65,564 and Texas of 51,645, while Virginia, Maryland, Florida, Georgia, South Carolina and Arkansas each gained from twenty thousand to forty thousand. Mississippi lost 74,303 Kentucky lost 25,718, Tennessee 21,330, Louisiana 13,617 and Alabama 7,630.

## Business Review

By Ettinger F. Smith

Beyond a doubt, one of the surest indications of a turn for the better, following an extended period of depression, is the return to work of those who found themselves idle when the wheels of industry ceased revolving. We have passed the winter of the greatest unemployment in the history of the country.

Through the fine co-ordination and co-operation among federal and state officials, mayor's relief organizations and citizens, we have come through with much less suffering than in previous years when unemployment was very much less. The gains are steady and sustained, and clearly indicate the upward trend of business. Improved weather conditions resulted in better business in all lines during the past week, which brought many optimistic expressions from business men in this community.

It is a certainty that the month of July will be the best of the new year so far, and better demand for all commodities throughout the entire summer is seen. On the whole, there is considerable improvement.

This year's business shows a substantial improvement over that of last year, and there is a splendid outlook for ensuing months, according to Earl W. Tymony, general manager. The concern was organized in the 90's. They take front rank as packers, shippers and movers of household goods.

"Who moves you" is just as important as "Where you move to." Efficiency and reliability should be your first thought. This concern always gives lowest prices, cash or time payments. This shows other evidence that Mr. Tymony, the popular

manager, ranks in the forefront of storage concerns in this city. Plans have already been drawn for a new warehouse, and work is expected to begin on this project in the very near future. When you contemplate moving or shipping your household effects, do not fail to give Mr. Tymony a ring. Oakland 3784. "He Knows How."

## Frankfort, Ky.

Mrs. Dr. Roach of Danville, Ky. is in the city the guest of her mother, Mrs. Patsy Jackson, and friends.
